Supplier Risk Management

Enhance supply chain reliability with strategic risk management

Supplier Risk Awareness and Mitigation is a proven method for maintaining reliability, reputation and avoiding cost. Risk takes many forms in the supply chain: a severe storm, a sudden change in regulation, an unethical supplier, a cyberattack, etc.

Preventing and managing supplier risks encompasses a wide range of activities ranging from integrating supplier risk prevention measures into purchasing activities to developing a playbook for navigating through a supplier crisis

This course focuses on steps to align your supply base risk exposure with the needs of your organization. Target audiences include all sub-groups and levels of the Purchasing organization

About the Supplier Risk Focus Course

Training is a 2-hour live online course on a culture of effective supplier risk focus and action planning. Topics include:

- 9 key supplier risks + 4 others to consider
- Monitoring and reporting supplier risks
- Tiered supply chain risks
- A supplier risk prevention framework
- Navigating through a supplier crisis
- Managing key issues including cybersecurity and supplier relationships strain due to tariffs

Participants receive a certificate of completion including 2 Continuing Education (CE hours).

Course Materials

Participants will receive comprehensive course notes with templates, techniques and examples of key risk monitoring tools, as well as a recorded video.

Cost and Session Timing

Course will be presented:
December 3, 9:00 AM to 11:00 AM EST
Registration rate is $199 (USD) per person

Acquired Skillsets

After attending this course, attendees will be able to:

- Understand areas of risk as well as potential impact to delivering a secure supply chain
- Techniques to monitor and report on supplier risks (e.g. supplier risk dashboard)
- Implement and share knowledge of risk identification techniques, (e.g. supplier risk heat map)
- Implement steps to integrate supplier risk prevention measures into purchasing activities
- Map your supply chain and options to reduce tiered supply chain risk
- Develop a playbook for navigating through a supplier crisis

About the Trainer

Mike Wynn is Vice President of Advanced Purchasing Dynamics (APD), a firm established in 2004 and committed to helping manufacturers create competitive advantage through the application of knowledge-based cost management and negotiations.

Wynn has thirty years of experience in manufacturing consulting and training, leading projects for companies such as Caterpillar, American Standard, Corning, North American Lighting, Nexteer, and Eaton.
